

GOD DWELLS IN CREATION by Sch. Maria Bosco

Our existence on earth is the extension of God's existence. Our abilities and strengths are the extension of God's ability and strength. Our genuine love and care for one another is the extension of God's love and care for all creation. For, God dwells in all creation. All that we have and possess are just given to us, be it things or ability, all are gift of God to us.

(Paintings by Sch. Maria Bosco)
